

PARCEL SOLUTIONS

FROM BANYAN TECHNOLOGY

Final Mile Distribution Solutions

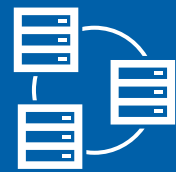

Omni-Channel Logistics

Use your business rules to find the best rates across multiple modes, carriers and service levels meeting consumer expectations while reducing costs.

Flexible Implementation Options

Integration with ERP platforms, OMS, WMS through well documented web-services or simplified implementation of the services via the Banyan cloud-based TMS.

Intuitive Interface

Banyan provides an intuitive interface that supports a continuum of carriers and services supporting the expanding needs of B2C and eCommerce markets providing a single source of truth for execution, tracking, reporting and analytics.

PARCEL OPERATIONS SIMPLIFIED

Regularly shipping small packages demands the right technology to ensure no profits or productivity are lost in operations. We match the required service level with the best carrier to meet consumer expectations. Banyan Parcel offers a flexible, comprehensive solution to parcel processing that finds the best carrier for the job, integrating with the scanners, scales and label printers you need to execute parcel shipments.

DISCOUNTED RATES THROUGH USPS

Banyan's latest partnership enables discounted USPS services to be delivered through our collaborative cloud-based platform, enhancing the value of Banyan's omni-channel logistics execution strategy that includes a wide range of specialized, same day carriers for parcel and freight through more than 1,400 other carrier connections.

PARCEL SOLUTIONS FROM BANYAN TECHNOLOGY
